TEST SUBMISSION INSTRUCTIONS

1

BEFORE SAMPLE COLLECTION

IMPORTANT: Fill in all required **Test Requisition Form** information to avoid delays and ensure timely reporting.

To ensure acceptance of your patient's specimen for testing, please verify that the **informed consent has been signed** from the patient and it has been **enclosed with samples**

3

BEFORE SAMPLE SHIPMENT

- Write the **collection date** in the specimen information section of the test requisition form.
- Ensure that primary specimen containers (e.g. blocks, slides) are labeled with two patient-specific identifiers.

2

SELECTING THE BEST SPECIMEN:

Acceptable Samples : FFPE specimens, including core needle biopsies, fine-needle aspirates and effusion cytologies

- FFPE block (one block). Tissue should be formalin-fixed, paraffin embedded. Use standard fixation methods to preserve nucleic acid integrity. 10% neutral-buffered formalin for 6-72 hours is industry standard. **DO NOT** use other fixatives (Bouins, B5, AZF, Holland's).
- Unstained Slides (20 slides) (positively charged and unbaked at 4-5 microns thick). Optimal sample size surface area: 25 mm².
- Fresh Tissue

Tumor nuclei percentage (number of tumor cells divided by total number of all cells with nuclei): >30% tumor or abnormal cells.

4

SAMPLE PACKAGING INSTRUCTIONS:

- Place the samples, **OncoNext™ Test Requisition Form**, pathology report, and any other attachments into the **OncoNext™ shipper kit box**.
- Put sample in the biohazard envelope and close the box.
- Place the **OncoNext™ test specimen kit** (including samples and paperwork) into the provided courier shipping pack.
- Seal the courier shipping pack.

5

SAMPLE SHIPMENT INSTRUCTIONS:

- If you are shipping **more than one shipper kit**, place as many as possible into one courier shipping pack.
- Adhere the **courier airbill** pouch to the outside of the courier shipping pack. Insert the airbill into the pouch.
- **Call courier** to arrange specimen pickup
- Ship specimens, **preferably the same day as collected**. Genoma receives specimens Monday through Saturday.
